## Royal Yerseke

Did you know Pip's family is originally from Yerseke, a small fishing village at the southwest coast of the Netherlands? Her family is renowned for its mussels, oysters and lobsters. In honor of this origin we created our new porcelain collection, called Royal Yerseke.

The artwork shows elegantly hand painted treasures from our North Sea, such as a crab, a lobster, mussels and a herring, which is a typical Dutch delicacy. Every item is decorated with beautiful golden details.

The collection consists of plates, bowls and mugs and goes perfectly with our Royal White collection.
